About MaxCyte

MaxCyte is a leading commercial cell-engineering company focused on providing enabling platform technologies to advance innovative cell-based research as well as next-generation cell therapeutic discovery, development and commercialization. Over the past 20 years, we have developed and commercialized our proprietary Flow Electroporation[®] platform, which facilitates complex engineering of a wide variety of cells. Our ExPERT[™] platform, which is based on our Flow Electroporation technology, has been designed to support the rapidly expanding cell therapy market and can be utilized across the continuum of the high-growth cell therapy sector, from discovery and development through commercialization of next-generation, cell-based medicines. The ExPERT family of products includes: three instruments, the ATx[™], STx[™] and GTx[™]; a portfolio of proprietary relate processing assemblies or disposables; and software protocols, all supported by a robust worldwide intellectual property portfolio.
