

### MaxCyte Reports Third Quarter Financial Results November 11, 2021

RNS Number : 0207S MaxCyte, Inc. 11 November 2021

### MaxCyte Reports Third Quarter Financial Results

GAITHERSBURG, MD, November 11, 2021 - MaxCyte, Inc., (NASDAQ: MXCT; LSE: MXCT, MXCN), a leading commercial cell-engineering company focused on providing enabling platform technologies to advance innovative cell-based research as well as next-generation cell therapeutic discovery, development and commercialization, today announced third quarter ended September 30, 2021 financial results.

# Third Quarter and Recent Highlights

- Total revenue was \$10.1 million in the third quarter of 2021, representing 50% growth compared to the same period in 2020.
- Security for protection for grant of the same period in 2020. SPL program-related revenue was \$2.0 million in the third quarter the highest SPL Program-related revenue was \$6.2 million for the third quarter, an increase of 38% compared to the same period in 2020. Revenue from drug discovery customers was \$1.9 million in the third quarter, a decrease of 5% compared to the same period in 2020.
- With the addition of Myeloid Therapeutics, Inc., Celularity, Inc., Sana Biotechnology, Inc., and Nkarta, Inc. signed year-to-date, the total number of SPLs now stands at 15.

sed to report very strong third quarter results driven by ongoing strength in sales to cell therapy customers and robust SPL Program-related revenue." said Doug Doerfler, President and CEO of MaxCyte

"We continue to expand our customer base and increase the number of strategic partnerships, now with 15 SPL agreements in place following the announcement of our agreement with Nkarta in early November. The vast majority of our SPL agreements enable MaxCyte to participate in pre-commercial milestones and post-commercial sales-based payments on SPL-related Programs. We remain bullish around the potential for our SPL partnerships to generate meaningful revenue for the business over the next 12 to 18 months and beyond as our partners continue to see clinical success.

We are also making important and strategic investments in our business, expanding our marketing, R&D and product development capabilities, launching innovative solutions to drive future growth, bolstering our leading internal and field-based cell engineering expertise, expanding our manufacturing capabilities as our customers move closer to commercialization, and adding strong talent across all facets of our business.

"Overall, MaxCyte remains well-positioned to support growing adoption of the ExPERT™ platform technology for cellular-based research and next-generation therapeutic development."

### Third Quarter Financial Results

Total revenue for the third quarter of 2021 was \$10.1 million, compared to \$6.8 million in the third quarter of 2020, representing growth of 50%. Sales to cell therapy customers, across both instruments and single use disposables, were collectively up 38% compared to the same period last year

Success in recognizing revenue from our SPL Programs was also a primary source of strength in the quarter. The Company recognized \$2.0 million in SPL Program-related revenue in the quarter (comprised of pre-commercial milestone revenues) as compared to \$0.3 million in SPL Program-related revenue in the third quarter of 2020.

Gross profit for the third quarter of 2021 was \$9.2 million (91% gross margin), compared to \$6.0 million (89% gross margin) in the same period of the prior year. The increase in gross margin was driven by the higher SPL Program-related revenues; excluding SPL

Operating expenses for the third quarter of 2021 were \$11.6 million, compared to operating expenses of \$8.9 million in the third quarter of 2020. The overall increase in operating expense was principally driven by a \$3.4 million increase in compensation expense associated with increased headcount and higher stock-based compensation (principally due to stock-price appreciation), as well as a \$1.2 million increase in legal, public company and professional service expense

Partially offsetting this excense growth was a \$2.5 million decline in CARMA<sup>104</sup>-related excenses compared with the same period last year. As of March 2021. all pre-clinical and clinical activities related to the CARMA<sup>104</sup> platform were substantially completed

Third quarter 2021 net loss was (\$2.7) million compared to net loss of (\$3.1) million for the same period in 2020.

Total cash, cash equivalents and short-term investments were \$255.9 million as of September 30, 2021.

### Preliminary 2021 Revenue

We are updating our revenue projection for fiscal year 2021. We now expect to achieve at least \$33.0 million in revenue for fiscal year 2021, up from our prior guidance of greater than \$30 million in revenue for the year.

### Executive Leadership Addition

James Lovgren has joined MaxCyte as Senior Vice President of Global Marketing. Mr. Lovgren brings deep experience in cell therapy to the role, where he will help grow adoption of the MaxCyte ExPERT<sup>w</sup> platform in cellular-based research and next-generation drug development. Most recently, Mr. Lovgren served as Vice President at Berkeley Lights, where he was responsible for cell therapy strategy, including product development and marketing. Previously, he served as General Manager at Thermo Fisher Scientific in the cell and gene therapy business, overseeing the launch of several strategic products. He also held leadership positions at Minerva Biotechnologies, ORGN3N and Life Technologies. Mr. Lovgren earned his master's degree in business administration at North Carolina State University and his bachelor's degree in biology at University of North Florida.

### Webcast and Conference Call Details

MaxCyte will host a conference call today, November 10, 2021, at 4:30 p.m. Eastern Time. Interested parties may access the live teleconference by dialing (844) 679-0933 for domestic callers or (918) 922-6914 for international callers, followed by Conference ID: 5098687. A live and archived webcast of the event will be available on the "Events" section of the MaxCyte website at https://investors.maxcyte.com/

### Form 10-Q

MaxCyte expects to file its Quarterly Report on Form 10-Q for the period ended September 30, 2021 with the SEC on November 10, 2021. When filed, a copy of the Form 10-Q will be available on the SEC's website at www.sec.gov and will also be available under the "SEC filings" page of the Investors section of the Company's website, https://investors.maxcyte.com/

MaxCyte is a leading commercial cell-engineering company focused on providing enabling platform technologies to advance innovative cell-based research as well as next-generation cell therapeutic discovery, development and commercialization. Over the past 20 years, we have developed and commercialized on proprietary Pion Electroportation® platform, which facilitates complex engineering of a wide variety of cells. Our ExPERT<sup>™</sup> platform, which is based on our Flow Electroportation technology, has been designed to support the rapidly expanding cell therapy market and can be utilized across the continuum of the high-growth cell therapy sector, from discovery and development through commercialization of next-generation, cell-based medicines. The ExPERT family of products includes: three instruments, the ATx<sup>™</sup>, STx<sup>™</sup> and GTx<sup>™</sup>; a portfolio of proprietary related disposable processing assemblies; and software protocols, all supported by a robust worldwide intellectual property portfoli

### Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to, statements regarding our revenue guidance for the year ending the Securities and Exchange Commission from time to time.
