

## MaxCyte Reports Third Quarter 2022 Financial Results

November 9, 2022 9:05 PM EST

### 22% Year-Over-Year Core Business Revenue Growth in Third Quarter 2022

#### Reiterates 2022 Revenue Guidance

ROCKVILLE, Md., Nov. 09, 2022 (GLOBE NEWSWIRE) -- MaxCyte, Inc., (NASDAQ: MXCT; LSE: MXCT), a leading, cell-engineering focused company providing enabling platform technologies to advance the discovery, development and commercialization of next-generation cell therapeutics and to support innovative, cell-based research, today announced financial results for the third quarter ended September 30, 2022.

#### Third Quarter Highlights

- Total revenue of \$10.6 million in the third quarter of 2022, an increase of 5% over the third quarter of 2021.
- Core business revenues grew 22% led by revenue from cell therapy customers which increased 27%, with drug discovery revenues growing by 4%.
- Reiterating 2022 guidance for core business revenue growth to be approximately 30%.
- Expecting SPL Program-related revenue to be approximately \$4.0 million for the full year.
- Total cash, cash equivalents and short-term investments were \$232.9 million as of September 30, 2022.

"We reported another strong quarter, with 22% year-over-year core business revenue growth, highlighted by 27% growth in revenues from cell therapy customers. We continue to make ongoing investments in the company to drive revenue growth and are focused on increasing customer adoption of our EXPERT™ platform in the industry, to enable a broad range of cell types and target a wide array of indications. Our strong business performance continues to validate our technology and our market leading position in cell engineering, therapeutic discovery and development and commercialization," said Doug Doerfler, President and CEO of MaxCyte.

"Overall, our SPL pipeline continues to be robust and we are confident in the potential of our customers to develop into future SPL partners with therapeutic programs to generate revenue in clinical and commercial settings. With the expansion into our new headquarters and manufacturing facility, we have increased our in-house manufacturing and process development capabilities to further support our partners as they move forward in clinical development towards potential commercialization."

The following table provides details regarding the sources of our revenue for the periods presented.

	Three Months Ended		
	September 30,		
	2022	2021	%
(in thousands, except percentages)			
Cell therapy	\$ 7,898	\$ 6,226	27%
Drug discovery	1,991	1,909	4%
Program-related	754	2,004	(62%)
Total revenue	<u>\$ 10,643</u>	<u>\$ 10,139</u>	5%

#### Third Quarter 2022 Financial Results

Total revenue for the third quarter of 2022 was \$10.6 million, compared to \$10.1 million in the third quarter of 2021, representing an increase of 5%.

Core business revenue (instruments and disposables to cell therapy and drug discovery customers and excluding program-related revenue) was \$9.9 million, including 27% revenue growth from cell therapy customers and 4% from drug discovery customers, compared to core business revenue of \$8.1 million in the same period last year.

Our SPL Program-related revenue was \$0.8 million, compared to \$2.0 million in the third quarter of 2021.

Gross profit for the third quarter of 2022 was \$9.3 million (87% gross margin), compared to \$9.2 million (91% gross margin) in the same period of the prior year.

Operating expenses for the third quarter of 2022 were \$17.0 million, compared to operating expenses of \$11.6 million in the third quarter of 2021. The overall increase in operating expenses was primarily driven by increased staff in field sales, field science, and manufacturing, as well as product development expenses to support our customers' and partners' growth. The increase also included additional sales and marketing expenses, stock-based compensation and occupancy expenses compared with the same period a year ago.

Third quarter 2022 net loss was \$6.4 million compared to net loss of \$2.7 million for the same period in 2021. EBITDA, a non-GAAP measure, was a loss of \$7.1 million for the third quarter of 2022, compared to a loss of \$2.4 million for the third quarter of the prior year. Stock-based compensation expense was \$3.2 million for the third quarter versus \$2.3 million for the same period in the prior year.

Total cash, cash equivalents and short-term investments were \$232.9 million as of September 30, 2022, compared to \$255.0 million at December 31, 2021.

## **2022 Revenue Guidance**

We expect core business revenue in 2022 to grow approximately 30% compared to 2021. We continue to expect SPL Program-related revenue to be approximately \$4.0 million in 2022.

## **Webcast and Conference Call Details**

MaxCyte will host a conference call today, November 9, 2022, at 4:30 p.m. Eastern Time. Investors interested in listening to the conference call are required to [register online](#). A live and archived webcast of the event will be available on the "Events" section of the MaxCyte website at <https://investors.maxcyte.com/>.

## **About MaxCyte**

MaxCyte is a leading, cell-engineering focused company providing enabling platform technologies to advance the discovery, development and commercialization of next-generation cell therapeutics and to support innovative, cell-based research. Over the past 20 years, we have developed and commercialized our proprietary Flow Electroporation<sup>®</sup> technology, which facilitates complex engineering of a wide variety of cells. Our ExPERT<sup>™</sup> platform, which is based on our Flow Electroporation technology, has been designed to support the rapidly expanding cell therapy market and can be utilized across the continuum of the high-growth cell therapy sector, from discovery and development through commercialization of next-generation, cell-based medicines. The ExPERT family of products includes: four instruments, the ATx<sup>®</sup>, STx<sup>®</sup> GTx<sup>®</sup> and VLx<sup>™</sup>; a portfolio of proprietary related processing assemblies or disposables; and software protocols, all supported by a robust worldwide intellectual property portfolio.

## **Non-GAAP Financial Measures**

This press release contains EBITDA, which is a non-GAAP measure defined as earnings, before interest, tax, depreciation and amortization. MaxCyte believes that EBITDA provides useful information to management and investors relating to its results of operations. The company's management uses this non-GAAP measure to compare the company's performance to that of prior periods for trend analyses, and for budgeting and planning purposes. The company believes that the use of EBITDA provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing the company's financial measures with other companies, many of which present similar non-GAAP financial measures to investors, and that it allows for greater transparency with respect to key metrics used by management in its financial and operational decision-making.

Management does not consider EBITDA in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of EBITDA is that it excludes significant expenses that are required by GAAP to be recorded in the company's financial statements. In order to compensate for these limitations, management presents EBITDA together with GAAP results. Non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results. A reconciliation table of net loss, the most comparable GAAP financial measure, to EBITDA is included at the end of this release. MaxCyte urges investors to review the reconciliation and not to rely on any single financial measure to evaluate the company's business.

## **Forward-Looking Statements**

This press release contains "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to, statements regarding our revenue guidance for the year ending December 31, 2022, and expectations regarding adoption of the ExPERT<sup>™</sup> platform, expansion of and revenue from our SPL Programs and the progression of our customers' programs into and through clinical trials. The words "may," "might," "will," "could," "would," "should," "expect," "plan," "anticipate," "intend," "believe," "expect," "estimate," "seek," "predict," "future," "project," "potential," "continue," "target" and similar words or expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Any forward-looking statements in this press release are based on management's current expectations and beliefs and are subject to a number of risks, uncertainties and important factors that may cause actual events or results to differ materially from those expressed or implied by any forward-looking statements contained in this press release, including, without limitation, risks associated with the impact of COVID-19 on our operations; the timing of our customers' ongoing and planned clinical trials; the adequacy of our cash resources and availability of financing on commercially reasonable terms; and general market and economic conditions may impact investor confidence in the biopharmaceutical industry affecting the amount of capital such investors provide to our current and potential partners resulting in decreased demand for our products. These and other risks and uncertainties are described in greater detail in the section entitled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021, filed with the Securities and Exchange Commission on March 22, 2022, as well as in discussions of potential risks, uncertainties, and other important factors in the other filings that we make with the Securities and Exchange Commission from time to time. These documents are available under the "SEC filings" page of the Investors section of our website at <http://investors.maxcyte.com>. Any forward-looking statements represent our views only as of the date of this press release and should not be relied upon as representing our views as of any subsequent date. We explicitly disclaim any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. No representations or warranties (expressed or implied) are made about the accuracy of any such forward-looking statements.
