A live and archived webcast of the Cowen presentation will be available on the "Events" section of the MaxCyte investor relations website at https://investors.maxcyte.com/.

About MaxCyte
MaxCyte is a leading, cell-engineering focused company providing enabling platform technologies to advance the discovery, development and commercialization of next-generation cell therapeutics and to support innovative, cell-based research. Over the past 20 years, we have developed and commercialized our proprietary Flow Electroporation® platform, which facilitates complex engineering of a wide variety of cells. Our ExPERT™ platform, which is based on our Flow Electroporation technology, has been designed to support the rapidly expanding cell therapy market and can be utilized across the continuum of the high-growth cell therapy sector, from discovery and development through commercialization of next-generation, cell-based medicines. The ExPERT family of products includes: four instruments, the ATx™, STx™ GTx™ and VLx™; a portfolio of proprietary relat processing assemblies or disposables; and software protocols, all supported by a robust worldwide intellectual property portfolio.
